

Wisconsin 590 Nutrient Management Application Restrictions

Map Generated On: 6/12/2014

Solid Manure Winter Spreading Restrictions

County: Brown

Legend*

- Intermittent Streams
- Perennial Streams
- No Winter App. Slope > 12%
- Winter Restriction if Slope > 9%
- Wetland Inventory

*Markup is not included in the Legend

Transportation - WI DOT (acquired 5/22/2012)

Notes

0 0.1 Miles

Scale 1: 5,025

This map has been developed utilizing the nutrient application restrictions from the September 2005 Wisconsin NRCS 590 Nutrient Management Practice Standard. This map is an initial inventory of nutrient spreading risks which must be field verified to identify other risk areas such as concentrated flow channels, wetlands, and conduits to groundwater. See the "Considerations" section of the 590 practice standard for additional planning suggestions. <http://efotg.nrcs.usda.gov/references/public/WI/590.pdf>
